

It is my hope that you will support the laws Indiana has to protect it's citizens from phone harassment. The only reason I even signed up for the no call list was because a bank continued to call me even after I requested not to be called. They informed me that it takes 30 days for the no-call request to be processed. I was receiving 6 calls or more a day! The Indiana AG's office told me I had to send the bank a certified letter requesting they stop calling , wait 7 days, and if i got a call, then they "might" be able to help. the people calling were very smug with their attitude, as they know I had no recourse. Please help protect my right to privacy, and peace from harassment. Thank You! Daniel Sarasien
